

# Automatic Styrofoam Box Taping Machine

EPS BOX Taping Machine

## Summary

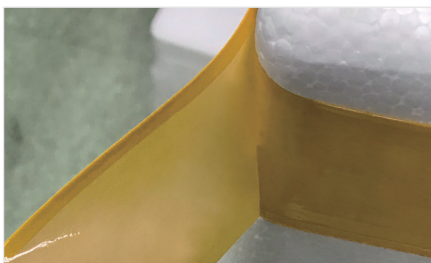

A machine that automatically tapes styrofoam boxes, which are mainly used for packaging box in food industry and cold chain industry. Automatically detect various styrofoam boxes and tape 2 styrofoam boxes simultaneously. This helps to improve the efficiency and productivity of packaging work.

<b>Box Dimension</b>	Width 250~400 Length 350~500 Height 250~400 (dimension can be customized)		
<b>Production Speed</b>	12Box / min	<b>Power Supply</b>	AC220 / single phase 60HZ 2.3KW
<b>Driving System</b>	AC Servo Motor	<b>Safety Protection</b>	Tape run out detection, Door interlock
<b>Application</b>	Frozen foods/Cold-storage packaging line, Cold chain industry, fresh food industry		

## Advantage

Easy tape removal by rounding the edge off tape

Automatic box size detection and taping

2 boxes taping at the same time

All electric control (No air compressor)

- No need for air compressor that requires piping wiring.
- Free from air filter blocked due to humidity in winter.
- No need to manage compressor separately (advantage from space and noise)
- Can be used in frozen warehouse and normal warehouse.

Straight line setup is available

- High space efficiency due to straight line design

Controller (PLC) Type Machine

- Special fine-tuning such as taping times, cover height can be customized.
